CURRICULUM AND INSTRUCTION

5.1(MH)—EDUCATIONAL PHILOSOPHY

The Mountain Home Public School District Number 9 strives to maintain the highest educational goals for the children of the community and will make every effort to continue to provide the educational opportunities necessary so that each individual may become a competent, self-providing citizen who is trained to take his/her place as a functioning member of society. In order to achieve these goals, all staff members will continue to evaluate and make necessary adjustments or changes in the curriculum and the total school environment as deemed necessary.

To produce a good citizen the fullest interpretation of the word is the main purpose of our school and all activities are designed to contribute toward that end. Character education and moral standards are needed along with the social, intellectual, and physical standards necessary to develop the power of initiative, self-direction and self-reflection. It is our desire to strive for a friendly relationship of mutual respect among students, teachers, parents, staff, and other members of the community. Thus, working together, we can maintain and improve upon an excellent education program based on the needs of the student in relation to his/her own unique capabilities.

Public Schools were created to foster and to promote the development of youth so that they might better understand the affairs of their time and be able to participate in them intelligently. Each student is recognized as an individual destined to take his/her place in a complex society. The school exists to help the student live an individually purposeful life and to prepare him/her to take his/her place in society to the mutual benefit of all concerned. The quality of education is maintained to give each student the utmost opportunity for growing intellectually, socially and physically. The curriculum is designed to encourage each student and to help him/her recognize and develop his/her own capabilities.

The success of the school's educational program is a result of the combined efforts of the community, board of education, administration, faculty, staff and students, toward keeping the curriculum current, flexible, and relevant. This success is tied closely to the financial commitment supporting these efforts from local, state, and federal sources.

The school should keep the parents informed of their children's progress and keep the community informed about the education and co-curricular activities of the school and the accomplishments of these activities. Involvement of citizens can be of value to the educational process and will help in facilitating communication.

5.2—PLANNING FOR EDUCATIONAL IMPROVEMENT

Each school in the district shall develop a comprehensive school improvement plan to address deficiencies in student performance based on analysis of students' grade-level benchmark assessments and other relevant data. The purpose of each plan shall be to ensure that all students meet the state assessment standards established by the State Board of Education, as well as student achievement goals established by the District. A cumulative review of all academic improvement plans shall also be part of the data used to develop the comprehensive school improvement plan. Each plan shall be developed with administrator, teacher, other school staff, parent, community, and student (when appropriate) input and shall have as one of its components a plan for a parental involvement program. Professional development activities are to be designed to meet the needs identified in each schools' plan. Each plan is to be reviewed annually and revised to meet the changing needs reflected in student data.

Any school in the district identified by the Arkansas Department of Education as failing to meet the established levels of academic achievement on the state's criterion-referenced tests shall revise its school improvement plan.

The district shall develop, with appropriate staff and community input, a comprehensive district improvement plan. The plan shall coordinate the actions of the various comprehensive school improvement plans within the district. The district plan shall align district resources to help ensure all of its students attain proficiency on the Benchmark exams.

5.3—CURRICULUM DEVELOPMENT

Sequential curricula should be developed for each subject area. Curricula are to be aligned with the curriculum frameworks and used to plan instruction leading to student proficiency on Arkansas' content standards. Curricula should be in alignment with the District's vision, mission, goals, and educational philosophy. Student achievement is increased through an integrated curriculum that promotes continuity and a growth in skills and knowledge from grade to grade and from school to school. Therefore, the Board desires that unnecessary duplication of work among the various grades and schools be eliminated and that courses of study and their corresponding content guides be coordinated effectively.

The Board of Education is responsible for reviewing and approving all instructional programs offered by the District as well as approving significant changes to courses before they are implemented. The Superintendent, or his designee, is responsible for making curriculum recommendations.

Each school shall review each curriculum area annually to address the continued relevancy, adequacy, and cost effectiveness of individual courses and instructional programs and to ensure each area is aligned with the current curriculum frameworks and course content standards approved by the State Board of Education. Each school's administration shall implement a monitoring process to ensure that the instructional content of each course offered is consistent with the content standards and curriculum frameworks approved by the State Board of Education.

5.4—(MH)STAFF DEVELOPMENT PROGRAM

All employees shall attend all local professional development training sessions as directed by a supervisor.

The District shall develop and implement a plan for the professional development of its certified employees. The district's plan shall, in part, align district resources to address the professional development activities identified in each school's ACSIP. The plan shall describe how the district's categorical funds will be used to address deficiencies in student performance and any identified academic achievement gaps between groups of students. At the end of each school year, the district shall evaluate the professional development activities' effectiveness in improving student performance and closing achievement gaps. Each certified employee shall receive a minimum of sixty (60) hours of professional development annually to be fulfilled between June 1 and May 31. Professional development hours earned in excess of sixty (60) in the designated year cannot be carried over to the next year. The goal of all professional development activities shall be improved student achievement and academic performance that results in individual, school-wide, and system-wide improvement designed to ensure that all students demonstrate proficiency on the state criterion-referenced assessments. The district's professional development plan shall demonstrate scientifically research-based best practice, and shall be based on student achievement data and in alignment with applicable ADE Rules and/or Arkansas code.

Teachers and administrators shall be involved in the design, implementation, and evaluation of the plan for their own professional development. The results of the evaluation made by the participants in each program shall be used to continuously improve the district's professional development offerings and to revise the school improvement plan.

Flexible professional development hours (flex hours) are those hours which an employee is allowed to substitute professional development activities, different than those offered by the district, but which still meet criteria of either the employee's Individual Improvement Plan or the school's ACSIP, or both. The district shall determine on an annual basis how many, if any, flex hours of professional development it will allow to be substituted for district scheduled professional development offerings. The determination may be made at an individual building, a grade, or by subject basis. The district administration and the building principal have the authority to require attendance at specific professional development activities. Employees must receive advance approval from the building principal for activities they wish to have qualify for flex professional development hours. To the fullest extent possible, professional development activities are to be scheduled and attended such that teachers do not miss their regular teaching assignments. When the District requests and/or requires that a teacher attend a professional development activity outside the school year calendar, the teacher will have the option to flex those hours, or receive their average daily rate of pay. Six (6) approved flex hours credited toward fulfilling the sixty (60) hour requirement shall equal one contract day. Hours of professional development earned by an employee that are not at the request of the district and is in excess of sixty (60) or not pre-approved by the building principal shall not be credited toward fulfilling the required number of contract days for that employee. Hours earned that count toward the required sixty (60) also count toward the required number of contract days for that employee.

Teachers and administrators who, for any reason, miss part or all of any scheduled professional development activity they were required to attend, must make up the required hours in comparable activities which are to be pre-approved by the building principal.

To receive credit for his/her professional development activity each employee is responsible for obtaining and submitting documents of attendance for each professional development activity he/she attends. Documentation is to be submitted to the building principal or designee.

Teachers and administrators are required to obtain sixty (60) hours of approved professional development annually over a five-year period as part of licensure renewal requirements. At least six (6) of the sixty (60) annual hours shall be in the area of educational technology.

Teachers are required to receive at least two hours annually of their sixty (60) required hours of professional development designed to enhance their understanding of effective parental involvement strategies.

Teachers who provide instruction in Arkansas history shall receive at least two (2) hours of professional development in Arkansas history as part of the sixty (60) hours required annually.

Administrators are required to receive at least three hours annually of their sixty (60) required hours of professional development designed to enhance their understanding of effective parental involvement strategies and the importance of administrative leadership in setting expectations and creating a climate conducive to parental participation. Each administrator's professional development is required to also include training in data disaggregation, instructional leadership and fiscal management.

Teachers required by the superintendent, building principal, or their designee to take approved training related to teaching an advance placement class for a subject covered by the College Board and Educational Testing Service shall receive up to thirty (30) hours of credit toward the sixty (60) hours of professional development required annually.

Certified personnel will be given up to twelve (12) hours of professional development subject to approval and supervision of the building principal for time they are required to spend in their instructional classroom, office or media center prior to the first day of student/teacher interaction provided the time is spent in accordance with the state law and current ADE rules that deal with professional development.³

Teachers are eligible to receive fifteen (15) professional development hours for a college course that meets the criteria identified in law and the applicable ADE rules. The board shall determine if the hours earned apply toward the required sixty (60). A maximum of thirty (30) hours may be applied toward the sixty (60) hours of professional development required annually.

Employees who do not receive or furnish documentation of the required annual professional development jeopardize the accreditation of their school and academic achievement of their students. Failure of an employee to receive sixty (60) hours of professional development in any given year shall be grounds for disciplinary action up to and including termination.

Approved professional development activities may include conferences, workshops, institutes, individual learning, mentoring, peer coaching, study groups, National Board for Professional Teaching Standards Certification, distance learning, internships, district/school programs, and approved college/university course work. Professional development activities should be consistent with the objectives developed by the National Staff Development Council Standards.

Professional development activities shall relate to the following areas: content (K-12); instructional strategies; assessment; advocacy/leadership; systemic change process; standards, frameworks, and curriculum alignment; supervision; mentoring/coaching; educational technology; principles of learning/developmental stages; cognitive research; and building a collaborative learning community.

Mountain Home teachers work a 191 day contract instead of a 190 day contract. Days will be assigned on school calendar as teacher work days. The additional day is designed as a teacher work day for teachers to prepare their classroom for the first day of student interaction.

PROFESSIONAL ORGANIZATIONS AND MEETINGS

- A. Membership in professional organizations is not required, but employees wishing to attend professional meetings or conventions on school time shall hold membership in the sponsoring organization unless an exception is approved by the Superintendent. Such meetings or conventions should be related to their present professional assignment.
- B. All requests for teacher or staff attendance at any professional meeting not required by the district must be approved in advance by the Superintendent or his designee. Expense reimbursements must be approved also.

PROFESSIONAL DEVELOPMENT AND PROFESSIONAL MEETINGS

- A. The Board believes that initial preparation is only the first phase of becoming and remaining professional staff members. It is equally important that systematic training be provided to the staff for the maintenance, development, and extension of their skills. Staff development will then be an integral part of the school district's total program.
- B. The district staff development program will offer a variety of opportunities for growth and revitalization, providing for district, building, and individual needs applicable to ADE Rules and/or Arkansas code. Provisions may be made to ensure increased personal and professional competence through the following:
 - 1. In-service programs, courses, and workshops offered within the district.
 - 2. Visits to other classrooms and schools.
 - 3. Attendance at conferences, workshops, and other professional meetings.
 - 4. Leaves of absence for advanced training.
- C. In addition, released time may be granted for conferences and visitation, and expenses may be reimbursed provided such activities are approved in advance by the principal and the appropriate director and are within budget allocations for that purpose.

- D. Attendance is required for all teachers, for all sessions of staff development. Staff development sessions will be announced at various intervals during the school year.
- E. All professional staff shall attend all meetings called by the appropriate administrator. Excuses for non-attendance may be granted only by the administrator calling the meeting.
- F. The number of professional development hours each certified staff member receives yearly will remain consistent with state rules, regulations, and laws. Staff members are reminded that it is their responsibility to keep a record of their own professional development hours.

5.5—SELECTION/INSPECTION OF INSTRUCTIONAL MATERIALS

The use of instructional materials beyond those approved as part of the curriculum/textbook program must be compatible with school and district policies. If there is uncertainty concerning the appropriateness of supplemental materials, the personnel desiring to use the materials shall get approval from the school's principal prior to putting the materials into use.

All instructional materials used as part of the educational curriculum of a student shall be available for inspection by the parents or guardians of the student. For the purposes of this policy, instructional materials is defined as instructional content provided to the student regardless of its format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats. The term does not include academic tests or academic assessments.

Parents or guardians wishing to inspect instructional materials used as part of the educational curriculum for their child may schedule an appointment with the student's teacher at a mutually agreeable time. Parents/guardians wishing to challenge the appropriateness of any instructional materials shall follow the procedures outlined in Policy 5.6—CHALLENGE OF INSTRUCTIONAL/SUPPLEMENTAL MATERIALS.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

5.6—CHALLENGE TO INSTRUCTIONAL/SUPPLEMENTAL MATERIALS

Instructional and supplemental materials are selected for their compatibility with the District's educational program and their ability to help fulfill the District's educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials may do so by filling out a *Challenge to Instructional Material* form available in the school's office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. In the conference, the principal shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the principal shall have five (5) working days to submit a summary of the concerns expressed by the individual and the principal's response to those concerns to the Superintendent*.

If the contesting individual is not satisfied with the principal's response, the individual may, after the five (5) working day period, request a meeting with the Superintendent where the individual shall present the same *Challenge to Instructional Material* form previously presented to the principal. The Superintendent shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the Superintendent shall have five (5) working days to write a summary of the concerns expressed by the individual and the Superintendent's response to those concerns. The Superintendent shall create a file of his/her response along with a copy of the principal's response and a copy of the contesting individual's *Challenge to Instructional Material* form.

If, after meeting with the Superintendent, the contesting individual is not satisfied with the Superintendent's response regarding the appropriateness of the instructional or supplemental material, he/she may appeal the Superintendent's decision to the Board. The Superintendent shall present the contesting individual's *Challenge to Instructional Material* form to the Board at the next regularly scheduled meeting along with the written responses to the challenge. The Board may elect, if it so chooses, to hear brief verbal presentations from the parties involved in the challenge.

The Board shall decide at that meeting or their next regularly scheduled meeting whether to retain the material, limit the availability of the material, or remove the material from the school. The Board's primary consideration in reaching its decision shall be the appropriateness of the material for its intended educational use.

If your district has a curriculum coordinator or education director you might choose to have the process proceed to him/her if not resolved by the principal to the satisfaction of the contestant before having the appeal proceed to the Superintendent.

5.7—(MH) SELECTION OF LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

1. Support and enhance the curricular and educational goals of the district;
2. Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
3. Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
4. Help develop critical thinking skills;
5. Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
6. Have literary merit as perceived by the educational community; and
7. Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges:

The parent of a student affected by a media selection, a District employee, or any other resident of the district may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Formal Reconsideration Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Formal Reconsideration Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Formal Reconsideration Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision. A notice of the committee's decision and the summary shall be given (by certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) of receipt of the information. The Board's decision is final.

5.8—USE OF COPYRIGHTED MATERIALS

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or his designee, will provide district personnel with information regarding the “fair use” doctrine of the U.S. Copyright Code as detailed in the “Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals” and “Guidelines for Educational Uses of Music.”

The District will not be responsible for any employee violations of the use of copyrighted materials.

5.9—COMPUTER SOFTWARE COPYRIGHT

The District shall observe copyright laws governing computer software reproduction. Unless specifically allowed by the software purchase agreement, the Copyright Act allows the purchaser of software to:

1. Make one copy of software for archival purposes in case the original is destroyed or damaged through mechanical failure of a computer. However, if the original is sold or given away, the archival copy must be destroyed;
2. Make necessary adaptations to use the program; and/or
3. Add features to the program for specific applications. These improvements may not be sold or given away without the copyright owner's permission.

The District shall abide by applicable licensing agreements before using computer software on local-area or wide-area networks.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof...” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be so that they are objective and academically informational and do not advocate any particular form of religious practice.

Instructional activities in the schools that are contrary to a pupil’s religious beliefs or teachings shall be optional.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.*

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

5.11— PROMOTION/RETENTION/COURSE CREDIT FOR 8 -12 SCHOOLS

A disservice is done to students through social promotion and is prohibited by state law. The district shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Each school in the Mountain Home School District shall include in the student handbook, the criteria for promotion of students to the next grade as well as the criteria for being required to retake a course, if applicable. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria. If there is doubt concerning the promotion or retention of a student, or their required retaking of a course, a conference between the parents/guardians, teacher(s), other pertinent personnel, and principal shall be held before a final decision is made. The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement, the final decision to promote or retain shall rest with the principal or his/her designee.

Students who do not score proficient or above on their grade level Benchmark Exams shall be required to participate in an individualized Academic Improvement Plan (AIP). Each AIP shall be developed by school personnel and the student's parents and shall be designed to assist the student in attaining the expected achievement level. The AIP shall also state the parent's role as well as the consequences for the student's failure to participate in the plan.

In addition to the Benchmark Exam requirements, students who do not meet the satisfactory passing level on the End-of-Course tests or on the Grade 11 Literacy test shall successfully participate in the remediation program identified in their AIP before they can receive credit for the course. The lack of credit could jeopardize their grade promotion or classification due to insufficient credits to qualify for the next grade.

Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

5.12(MH)—PROMOTION/RETENTION/COURSE CREDIT FOR K-7 SCHOOLS

A disservice is done to students through social promotion and is prohibited by state law. The district shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Each school in the Mountain Home School District shall include in the student handbook, the criteria for promotion of students to the next grade. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention shall be included with the student's grades sent home to each parent/guardian. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Promotion or retention of students shall be primarily based on the following criteria.

- A. Students shall be promoted or retained on the basis of grades, age, and the evaluation and judgment of the professional staff. Parent input will be considered. The retention committee shall formulate a recommendation to promote or retain a student. This recommendation will be passed on to the building principal. The principal will accept or reject the committee's recommendation.
- B. The retention committee for a student shall be selected from the following professional staff: teachers, principal, and counselor.
- C. No pupil shall be retained more than once without approval of the Superintendent. Pupils retained should be assigned to a different teacher, if desirable.

If there is doubt concerning the promotion or retention of a student, before a final decision is made, a conference between the parents/guardians, teacher(s), other pertinent personnel, and principal shall be held. The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement, the final decision to promote or retain shall rest with the principal.

Students who do not score proficient or above on their grade level Benchmark Exams shall be required to participate in an individualized Academic Improvement Plan (AIP). Each AIP shall be developed by school personnel and the student's parents and shall be designed to assist the student in attaining the expected achievement level. The AIP shall also state the parent's role as well as the consequences for the student's failure to participate in the plan, which may include the student's retention in their present grade.

Promotion/retention or graduation of students with an Individual Educational Plan (IEP) shall be based on their successful attainment of the goals set forth in their IEP.

5.14—HOMEWORK

Homework is considered to be part of the educational program of the District. Assignments shall be an extension of the teaching/learning experience that promotes the student's educational development. As an extension of the classroom, homework must be planned and organized and should be viewed by the students as purposeful.

Teachers should be aware of the potential problem students may have completing assignments from multiple teachers and vary the amount of homework they give from day to day. Homework schedules can be found in the student handbooks.

5.15 (MH)—GRADING

Parents or guardians shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine-week grading period* to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grading scale for grades 1-12 in the district shall be as follows. Kindergarten students are graded on a mastery checklist.

A = 100 – 90
B = 89 – 80
C = 79 – 70
D = 69-60
F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 4 points
B = 3 points
C = 2 points
D = 1 point
F = 0 points

The grade point values for Advanced Placement (AP), International Baccalaureate (IB), and approved honor courses shall be one point greater than for regular courses with the exception that an F shall still be worth 0 points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had 40 days. A student transferred in with a grade of 83% earned in 10 days at the previous school. The student had a grade of 75% in our district's

school earned in the remaining 30 days of the grading period. 10 days is 25% of 40 days while 30 days is 75% of 40 days. Thus the final grade would be $.25 (83) + .75 (73) = 75.5\%$.

** For districts on a 4x4 block schedule the grading period should be adjusted.*

5.16 (MH)—GRADUATION REQUIREMENTS FOR THE CLASSES OF 2010-11, 2011-12, AND 2012-13

The number of units students must earn to be eligible for high school graduation are to be earned from the following categories. A minimum of 22 units is required for graduation by the Arkansas Department of Education for student participating in either the Smart Core or Core curriculum. In addition to the 22 units required for graduation by the Arkansas Department of Education, the district requires an additional 2 units to graduate for a total of 22 units. The additional required units may be taken from any electives offered by the district. There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements. The provisions of a student's Individualized Education Plan (IEP) serve as his/her graduation plan. Additionally, unless exempted by a student's IEP, all students must successfully pass all end-of-course (EOC) assessments they are required to take or meet the remediation required for the EOC assessment to receive academic credit for the applicable course and be eligible to graduate from high school.

SMART CORE: Sixteen (16) units

English: four (4) units – 9th, 10th, 11th, and 12th

Oral Communications: one-half (1/2) unit (1/2 year)

Mathematics: four (4) units (all students under Smart Core must take a mathematics course in grade 11 or 12 and complete Algebra II.)

- Algebra I or Algebra A & B* which may be taken in grades 7-8 or 8-9
- Geometry or Investigating Geometry or Geometry A & B* which may be taken in grades 8-9 or 9-10

*A two-year algebra equivalent or a two-year geometry equivalent may each be counted as two units of the four-unit requirement for the purpose of meeting the **graduation** requirement, but only serve as one unit each toward fulfilling the **Smart Core** requirement.

- Algebra II
- Choice of: Transitions to College Math, Pre-Calculus, Calculus, Trigonometry, Statistics, Computer Math, Algebra III, or an Advanced Placement math

(Comparable concurrent credit college courses may be substituted where applicable)

Natural Science: three (3) units with lab experience chosen from

- Physical Science
- Biology or Applied Biology/Chemistry
- Chemistry
- Physics or Principles of Technology I & II or PIC Physics

Social Studies: three (3) units

- Civics or Civics/American Government
- World History

- American History

Physical Education: one-half (1/2) unit

Note: While one-half (1/2) unit is required for graduation, no more than one (1) unit may be applied toward fulfilling the necessary units to graduate.

Health and Safety: one-half (1/2) unit

Fine Arts: one-half (1/2) unit

CAREER FOCUS: - Six (6) units

All career focus unit requirements shall be established through guidance and counseling based on the student's contemplated work aspirations. Career focus courses shall conform to the curriculum policy of the district and reflect state curriculum frameworks through course sequencing and career course concentrations where appropriate.

The Smart Core and career focus units must total at least twenty-two (22) units to graduate by the Arkansas Department of Education. Additionally, the district requires 4 units for a total of 26 units to graduate which may be taken from any electives offered by the district.

CORE: Sixteen (16) units

English: four (4) units – 9, 10, 11, and 12

Oral Communications: one-half (1/2) unit

Mathematics: four (4) units

- Algebra or its equivalent* - 1 unit
- Geometry or its equivalent* - 1 unit
- All math units must build on the base of algebra and geometry knowledge and skills.
- (Comparable concurrent credit college courses may be substituted where applicable)

*A two-year algebra equivalent or a two-year geometry equivalent may each be counted as two units of the four (4) unit requirement.

Science: three (3) units

- at least one (1) unit of biology or its equivalent
- one (1) unit of a physical science

Social Studies: three (3) units

- Civics or government, one-half (1/2) unit
- World history, one (1) unit
- U.S. history, one (1) unit

Physical Education: one-half (1/2) unit

Note: While one-half (1/2) unit is required for graduation, no more than one (1) unit may be applied toward fulfilling the necessary units to graduate.

Health and Safety: one-half (1/2) unit

Fine Arts: one-half (1/2) unit

CAREER FOCUS: - Six (6) units

All career focus unit requirements shall be established through guidance and counseling based on the student's contemplated work aspirations. Career focus courses shall conform to the curriculum policy of the district and reflect state curriculum frameworks through course sequencing and career course concentrations where appropriate.

The Core and career focus units must total at least twenty-two (22) units to graduate by the Arkansas Department of Education. Additionally, the district requires 2 units for a total of 24 units to graduate which may be taken from any electives offered by the district.

5.17—(MH) HONOR ROLL AND HONOR GRADUATES

HONOR ROLL

Students in grades K-6 who maintain a 3.5 grade point average (GPA) (select the GPA you desire) for the grading period will be recognized as honor roll students for that grading period. Semester grades will determine the honor roll at the end of each semester.

Students in grades 7-12 who participate in the Smart Core Curriculum and maintain a 3.5 GPA (select the GPA you desire) for the grading period will be recognized as honor roll students for that grading period. Semester grades will determine the honor roll at the end of each semester.

HONOR GRADUATES

Students who have successfully completed the minimum core of courses recommended for preparation for college as defined by the State Board of Higher Education and the State Board of Education and have a cumulative GPA of 3.5 (select the GPA you desire) will be designated as honor students. The GPA shall be derived from courses taken in public schools in grades nine (9) through twelve (12).

VALEDICTORIAN AND SALUTATORIAN

Parents or guardians of a student, or a student eighteen (18) years of age or older, who choose to not have the student publicly identified as an honor roll or honor graduate student must submit a written request that the student not be so identified.

5.17F— HONOR ROLL AND GRADUATE OPT OUT FORM

I, the undersigned, being a parent or guardian of a student, or a student eighteen (18) years of age or older, hereby note my objection to having the student named below publicly identified as an honor roll or honor graduate student.

Name of student (Printed)

Signature of parent (or student, if 18 or older)

Date form was filed (To be filled in by office personnel)

5.18—HEALTH SERVICES

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District's health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules and Regulations Chapter Five: Delegation of Nursing Care.

Date Adopted: June 27, 2006

Last Revised: June 27, 2006

5.19—(MH)EXTRACURRICULAR ACTIVITIES – SECONDARY SCHOOLS

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not be excessive. Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students meeting this policy's criteria are eligible for extracurricular activities.

Definitions:

Extracurricular activities are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular classtime, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, interscholastic athletics, cheerleading, band, choral, math, or science competitions, and club activities.

Academic Courses are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State certification in the course, and has a course content guide which has been approved by the Arkansas Department of Education. Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by the Arkansas Department of Education. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

Supplemental Improvement Program is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association Handbook.

ACADEMIC REQUIREMENTS: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester, three (3) of which shall be in the core curriculum areas specified by the Arkansas Department of Education's Standards of Accreditation of Arkansas Public Schools.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester, three (3) of which shall be in the core curriculum areas specified by the Arkansas Department of Education's Standards of Accreditation of Arkansas Public Schools.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

ACADEMIC REQUIREMENTS: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

- 1) Have earned a minimum Grade Point Average of 2.0 from all academic courses the previous semester; or
- 2) If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in a supplemental instruction program to maintain their competitive interscholastic extracurricular eligibility.

STUDENTS WITH AN INDIVIDUAL EDUCATION PROGRAM

In order to be considered eligible to participate in competitive interscholastic activities, students with disabilities must pass at least four (4) courses per semester as required by their individual education program (IEP).

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of the Arkansas Activities Association (AAA) governing interscholastic activities.

5.19.1—(MH)EXTRACURRICULAR ACTIVITIES - ELEMENTARY

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments or other similar events excepted with approval of the principal, or his/her designee) All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior.

For the purposes of this policy, extracurricular activities are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular classtime, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, interscholastic athletics, cheerleading, band, choral, math, or science competitions, and club activities.

5.20—DISTRICT WEB SITE

The Mountain Home School District shall maintain a web page to provide information about its schools, students, and activities to the community. This policy is adopted to promote continuity between the different pages on the district web site by establishing guidelines for their construction and operation.

The Mountain Home School District web site shall be used for educational purposes only. It shall not create either a public or a limited public forum. Any link from any page on the District's site may only be to another educational site. The web site shall not use "cookies" to collect or retain identifying information about visitors to its web site nor shall any such information be given to "third parties." Any data collected shall be used solely for the purpose of monitoring site activity to help the district improve the usefulness of the site to its visitors.

Each school's web page shall be under the supervision of the school's Web Master and the District's web site shall be under the supervision of the District's Web Master. They shall have the responsibility for ensuring that web pages meet appropriate levels of academic standards and are in compliance with these guidelines and any additional administrative regulations. To this end the District and School Web Masters shall have the authority to review and edit any proposed changes to web pages to ensure their compliance with this policy. All such editing shall be viewpoint neutral.

District and school web pages shall also conform to the following guidelines.

- 1) All pages on the District's web site may contain advertising and links only to educational sources.
- 2) The District's home page shall contain links to existing individual school's web pages and the school home pages shall link back to the District's home page. The District's home page may also include links to educational extracurricular organization's web pages which shall also link back to the District's home page.
- 3) Photos along with the student's name shall not only be posted on web pages after receiving a written request not to publish from the student or their parents if the student is under the age of 18.
- 4) The District's web server shall host the Mountain Home District's web site.
- 5) No web page on the District web site may contain public message boards or chat rooms.
- 6) All web pages on the District web site shall be constructed to download in a reasonable length of time.
- 7) The District's home page shall contain a link to a privacy policy notice which must be placed in a clear and prominent place and manner.
- 8) With the exception of students who may retain the copyright of material they have created that is displayed on a District web page, all materials displayed on the District web site are owned by Mountain Home School District.

- 9) Included on the District's web site shall be:
- a. Minutes of regular and special meetings of the school board;
 - b. The budget for the ensuing year;
 - c. A financial breakdown of monthly expenditures of the district;
 - d. The salary schedule for all employees;
 - e. The district's yearly audit;
 - f. The annual statistical report of the district.

5.20 F1—PERMISSION TO DISPLAY PHOTO OF STUDENT ON WEB SITE

I hereby grant permission to the Mountain Home School District to display the photograph or video clip of me/my student (if student is under the age of eighteen {18}) on the District’s web site, including any page on the site, or in other District publications without further notice. I also grant the Mountain Home School District the right to edit the photograph or video clip at its discretion.

The student’s name may be used in conjunction with the photograph or video clip. It is understood, however, that once the photograph or video clip is displayed on a web site, the District has no control over how the photograph or video clip is used or misused by persons with computers accessing the District’s web site.

5.21—ADVANCED PLACEMENT

Students who take advanced placement courses, International Baccalaureate courses, or concurrent college courses for weighted credit or honors courses approved for weighted credit by the Arkansas Department of Education shall be graded according to the following schedule.

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69-60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be

A = 5 points

B = 4 points

C = 3 points

D = 2 point

F = 0 points

Students taking AP or International Baccalaureate courses shall receive weighted credit as described in this policy. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable AP exam. Students who do not take the AP exam shall receive the same numeric value for the grade he/she receives in the course as if it were a non-AP course.

Students who transfer into the district will be given weighted credit for the Advanced Placement courses, International Baccalaureate courses, honors courses approved by the Arkansas Department of Education, and concurrent college courses taken for weighted credit at his/her previous school(s) according to the preceding scale.

5.22—CONCURRENT CREDIT

A ninth through twelfth grade student who successfully completes a college course(s) from an institution approved by the Arkansas Department of Education shall be given credit toward high school grades and graduation at the rate of one-half (1/2) high school credit for each three (3) semester hours of college credit. Unless approved by the school's counselor **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). The transcripts are to be received by the school within thirty (30) school days of the end of the semester in which the course is taken.¹ Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received in time, or at all. This may jeopardize students' eligibility for extracurricular activities or graduation.

Students will retain credit applied toward a course required for high school graduation from a previously attended, accredited, public school.

Any and all costs of higher education courses taken for concurrent credit are the student's responsibility.

5.23—EQUIVALENCE BETWEEN SCHOOLS

The district has no policy.

5.24—STUDENT PARTICIPATION IN SURVEYS

Section One: No student shall be required to submit to a survey, analysis, or evaluation which is administered or distributed by a school, and is funded in whole or in part by any program administered by the U.S. Department of Education without the prior written consent of the parent/guardian that reveals information concerning the following:

1. political affiliations;
2. mental and psychological problems potentially embarrassing to the student or his family;
3. sex behavior and attitudes;
4. illegal, anti-social, self-incriminating, and demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. religious practices, affiliations, or beliefs of the student or student's parent; or
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Section Two: No surveys shall be administered without the prior approval of the school principal. Any survey created by a third party, or funded, in whole or in part, as part of any US Department of Education administered program, containing one or more of the eight categories listed above shall be available to be inspected by a student's parent/guardian before the survey is administered or distributed by a school to a student. Parents/guardians shall have the right to deny permission for their child to participate in the taking of the survey. The school shall not penalize students whose parents/guardians exercise this option. The school shall take reasonable precautions to protect students' privacy during their participation in the administration of any survey, analysis, or evaluation containing one or more of the eight categories listed above.

Section Three: Parents or guardians wishing to inspect a survey, analysis, or evaluation shall be able to do so in the administrative office of the administering school where the surveys shall be available for inspection for a period of ten (10)* days (regular school days when school is in session) after the notice of intent to administer the survey is sent. Included in the notice shall be information regarding how the survey or questionnaire will be administered; how it will be utilized; and the persons or entities that will have access to the results of the completed survey or questionnaire. Parents may refuse to allow their student to participate before or after reviewing the survey or questionnaire.

The requirements of sections one, two, and three of this policy do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA).

Section Four: Prior written parental permission is required before any survey or questionnaire (not including tests mandated by state or Federal law or regulation and standardized scholastic achievement tests) is administered to a student the responses to which are to be provided to a person or entity other than another public school, school district, or any branch of the Federal Government and which requests or requires a student to provide any of the eight (8) categories of information listed above and/or the following;

1. A student's name;
2. The name of the student's parent or member of the student's family;
3. The address, telephone number, or email address of a student or a member of a student's family;
4. A personal identification number, such as a social security number, driver's license number, or student identification number of a student or a member of the student's family;
5. Any information, the disclosure of which is regulated, or prohibited by any other state or federal law or regulation.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

5.25—MARKETING OF PERSONAL INFORMATION

The Mountain Home School District shall not collect, disclose, or use personal information for the purpose of marketing or for selling that information or to otherwise provide that information to others for that purpose.¹

Personal information is defined, **for the purposes of this policy only**, as individually identifiable information including

1. a student or parent's first and last name,
2. a home or other physical address (including street name and the name of the city or town),
3. telephone number, and
4. social security identification number.

The district may collect, disclose, or use personal information that is collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions such as the following:

1. College or other postsecondary education recruitment, or military recruitment;
2. Book clubs, magazines, and programs providing access to low cost literary products;
3. Curriculum and instructional materials used by elementary schools and secondary schools;
4. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
5. The sale by students of products or services to raise funds for school related or education related activities; and
6. Student recognition programs.

¹ While the law does allow a school or district to collect and disclose “personal information” for marketing purposes under certain circumstances, the requirements for doing so are such that ASBA recommends you simply not go there. If you're extremely determined to do so, look at 20 USC § 1232h (c) [NCLB Act of 2001, Part F, Section 1061 (c) (6)(E)(F)(i)(ii) to help you make your final decision.

5.26—ALTERNATIVE LEARNING ENVIRONMENTS

The district shall have an alternative learning environment (ALE) which shall be part of an intervention program designed to provide guidance, counseling, and academic support to students who are experiencing emotional, social, or academic problems.

The superintendent or his/her designee shall appoint an Alternative Education Placement Team which shall have the responsibility of determining student placement in the ALE. The team should consist of at least a school counselor, the ALE director or principal, a parent or legal guardian, and a regular classroom teacher.

Students who are placed in the ALE shall exhibit at least two of the following characteristics:

- Disruptive behavior
- Drop out from school
- Personal or family problems or situations
- Recurring absenteeism
- Transition to or from residential programs

For the purposes of the ALE, personal or family problems or situations are conditions that negatively affect the student's academic and social progress. These may include, but are not limited to:

- Ongoing, persistent lack of attaining proficiency levels in literacy and mathematics
- Abuse: physical, mental, or sexual
- Frequent relocation of residency
- Homelessness
- Inadequate emotional support
- Mental/physical health problem
- Pregnancy
- Single parenting

The teachers and administrator of the ALE shall determine exit criteria for students assigned to the district's ALE on which to base the student's return to the regular school program of instruction.

The district's ALE program shall follow class size, staffing, curriculum, and expenditure requirements identified in the ADE Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditure of These Funds.

BAXTER COUNTY ALTERNATIVE SCHOOL

Baxter County Alternative School is a division of Baxter County Juvenile Services, working in cooperation with the Public Schools of Baxter County. Students are received either by a court order or referral from a public school. Referrals are made for one or more of the followings reasons:

1. To suspend expulsions proceedings
2. Five out-of-school suspensions

The goal for students placed at BCAS is to become prepared behaviorally and academically to reenter public school and pursue a high school diploma.

All students returning to Mountain Home High School from BCAS during the school year must re-enroll through the Counselor's Office.

If a student was referred to BCAS for DISCIPLINARY reasons,, he/she will be placed on probation for one complete semester upon return to Mountain Home Public Schools. Upon receiving their first Saturday School or Out of School suspension, probationary students will receive the appropriate disciplinary action, as well as contacting the parent/guardian and Juvenile Services. Probationary students may be referred back to the Discipline Advisement Committee for possible re-entry to BCAS upon receiving their second Saturday School or Out of School suspension.

5.29(MH)—FOREIGH STUDENT ENROLLMENT POLICY

FOREIGN STUDENT ENROLLMENT POLICY

A. Foreign Exchange Program

1. The Mountain Home School District will allow a maximum of six foreign exchange students to attend Mountain Home High School, and only exchange programs with a local representative will be accepted.
2. Exchange students who plan to attend Mountain Home Schools must demonstrate an adequate proficiency in English by submitting an essay to the Building Selection Committee (principal/assistant principal and counselors) prior to acceptance. Students will be expected to take a normal curriculum class load. Most students will be enrolled in American studies (history and literature) and any other courses deemed appropriate by the high school counselor(s).
3. The representative or organization must inform the building principal of a request to enroll an exchange student in writing by May 1 of the year preceding the desired enrollment. This is to allow all the necessary paperwork to be completed, host families finalized, schedules developed, etc. before the school year ends.
4. All decisions concerning organizations/exchange students' acceptance will be determined by the Building Selection Committee and approved by the Mountain Home Board of Education.
5. No organization will be allowed more than two (2) slots in any given school year, unless there are fewer than six eligible students who apply. Slots will be delegated at the discretion of the Building Committee.
6. The class needs of resident students will be met before accommodating the needs of in-coming exchange students.
7. Entering foreign visiting students must submit the following immediately upon acceptance into the district:
 - a. Name of the host family and representative
 - b. A current transcript that includes:
 1. course titles for each subject taken
 2. the school year the class was taken
 3. the grade earned for each class
 - c. A full copy of all the student's application papers

8. Exchange students can remain a maximum of one year at M.H.H.S. and typically, because of credit problems, they will not be able to receive a diploma at Mountain Home High School.
 9. Exchange students will be expected to abide by all the rules of the Mountain Home School District.
 10. The committee reserves the right to accept or reject any or all applicants.
 11. Foreign students eligible to qualify are encouraged to participate in athletics and activities.
- B. Other Foreign Students
1. The Mountain Home School District will allow a maximum of two foreign students to attend Mountain Home High School.
 2. Foreign students must pay tuition to attend Mountain Home High School. The Mountain Home School Board will set the amount of tuition.
 3. Foreign students must pay any required governmental or agency fees or charges related to the student's attendance at Mountain Home High School.
 4. Foreign students may stay more than one year but must reapply each year.
 5. Foreign students must adhere to the same rules, regulations and time lines as Foreign Exchange students with the exceptions noted in B.

5.30 (MH)—DRUG TESTING POLICY FOR GRADES 7-12

The Mountain Home Board of Education adopts a policy that requires all students, grades 7-12 that participate in any activities registered with the Arkansas Activities Association or any extracurricular activity that involves after school participation or travel to be subject to testing at various times of the year. The Mountain Home School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. Baxter County law enforcement and court officials have identified drug use and abuse as a major problem for our county. The Mountain Home Board of Education is determined to help students by providing another option for them to say “NO”. Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of the legal drugs and medications. The Mountain Home School District identifies the following purposes for the implementations of drug testing.

1. To allow the students of the Mountain Home Schools to know that the school is concerned about their total well being. The School District is interested in helping the students who may be having problems.
2. To emphasize concerns for the health of students in areas of safety while they are participating in activities, as well as the long-term physical and emotional effects of chemical use on their health. To confirm and support state laws which restrict the use of mood-altering chemicals.
3. To assist students of the Mountain Home Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.
4. To establish standards of conduct for students of the Mountain Home Schools who are considered leaders and standard bearers among their peers.
5. To work cooperatively with the parents by assisting them in keeping their children free from mood-altering chemicals.
6. To provide referrals for students who need evaluation regarding their use of mood-altering chemicals.
7. To deter chemical abuse or misuse by all students through the use of random drug testing.

To effectively and efficiently implement this policy, the Board of Education adopts the following procedural guidelines:

1. Students Subject to Drug Free Requirements and Random Drug Testing

This policy applies to all students grades 7-12 (male or female) who try out for, or participate in any activity requiring registration with the Arkansas Activities Association and any extracurricular activity that involves after school participation or travel.

2. Consent Form

Students desiring to either try-out for or participate in any of the activities described above must sign a consent form agreeing to comply with the provisions of the District's random drug testing program. The consent form must also be signed by the student's parents or legal guardians prior to any participation (see attached consent form). Students who fail to submit the required consent form will not be allowed to try out for or participate in any extracurricular activity.

3. Random Drug Testing During Season and Off-Season

- A. Students subject to testing. All students participating in any activity in grades 7-12 registered with the Arkansas Activities Association, or any extracurricular activity that involves after school participation or travel, will be subject to drug testing at various times of the year.
- B. Percentage of students to be random tested. Up to 25% of the students included in the testing pool will be selected during each random testing period.
- C. Frequency of random drug tests. There will be a minimum of 4 random tests during each school year, at various times of the school day and with varying intervals between tests.
- D. Selection of students to be tested. Students will be selected at random by an outside drug-testing agency. Those students will be called for testing.
- E. Administration of the random drug tests. After the selection process is completed the school will call the selected students from class and deliver them to a site selected and prepared by a professional drug-testing agent contacted by the school. That professional will supervise the urine collection and assure a legal "chain of custody" of the sample. The students will then return to class.
- F. Refusal to participate in random drug testing. Any student who refuses to participate in the random drug-testing program will be treated as having a positive drug test.
- G. Students who are unable to participate. Students selected but who are unable to participate at the time called, will be tested at a later date.
- H. Cost of random drug test. All random drug testing cost will be paid for by the Mountain Home School District, except those otherwise indicated later in the policy.

1. Initial Testing of the Samples

All drug testing will be conducted through the facilities of the professional drug-testing agent to be named to protect confidentiality. Identification of all samples will be by a control number. Results of the initial drug screen will be communicated by letter to the Superintendent of Schools or his or her designee.

2. Confirmation of Positive Drug Screen

If the initial drug screen performed by the professional testing agent is positive for a prohibitive substance, a second test of the original sample may be administered to confirm the results. The parents may request a second test within forty-eight hours of the notification of positive results of the initial drug screen. Should the 2nd test return negative, the district will incur cost; a positive confirmation test will be paid for by the student.

3. Confidentiality of Test Results

The District will make every effort to protect the privacy rights of the student and to insure the confidentiality of drug test results. All records concerning the testing are maintained by the Superintendent of the Mountain Home Schools or his designee in a separate file under lock and key. The records are not kept in a student's regular file and only the Superintendent or his designee shall have access to the files. The files on each student are destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents/legal guardians may obtain a copy of their chemical abuse testing records upon written request.

4. District Action for a Positive Drug Screen

A. First Violation:

1. Student will be suspended from all participation, practice, and play in any of the above mentioned activities in which they are involved, for a minimum of 5-10 days from date of student being notified of positive results.
2. A negative confirmation test will result in the student being immediately readmitted to participate in their activity or activities.
3. A student who presents evidence of attendance and successful completion in a school approved drug abuse-counseling program may resume the activity or activities after five days.

4. A student must re-test (**at their expense**) and be clean before being allowed to participate. The school will establish a time and place for the re-test.

B. Subsequent Violations:

A second confirmed positive test will result in student being suspended from participation, play, or practice for one calendar year.

C. Cost of Medical Treatment and Substance Abuse Counseling:

The student is responsible for **all** costs related to medical treatment by physicians, professional services rendered by any substance abuse counselor or agency, and any additional drug tests required as a direct result of a violation of the drug free requirements of this policy.

5.31-(MH) WELLNESS POLICY

The health and physical well-being of our students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the board of directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The board is keenly aware that it has taken years for this problem to reach its present level. and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Department of Education, but with the community and its residents, organizations and agencies. Therefore, the district shall enlist the support of the larger community to find solutions which improve the health and physical activity of our students.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the district will adhere to the Arkansas Rules Governing Nutrition and Physical Activity Standards in Arkansas Public Schools. Adhering to these Rules will include, but is not limited to district efforts to:

1. Appoint a district school health coordinator who shall be responsible for ensuring that each school fulfills the requirements of this policy;
2. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
3. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
4. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
5. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
6. Not use food or beverages as rewards for academic, classroom, or sports performances;
7. Ensure that drinking water is available without charge to all students;
8. Establish class schedules, and bus routes that don't directly or indirectly restrict meal access;
9. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
10. Establish no more than nine (9) school wide events which permit exceptions to the food and beverage limitations established by Rule. The schedule of the events shall be by school, approved by the principal, and shall be part of the annual school calendar;

11. Abide by the current allowable food and beverage portion standards;
12. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;
13. Restrict access to vended foods, competitive foods, and foods of minimal nutritional value (FMNV) as required by law and Rule;
14. Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence on profits from the sale of FMNV.
15. Provide professional development to all district staff on the topics of nutrition and/or physical activity.
16. Utilize the School Health Index available from the Center for Disease Control (CDC) to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students;

Advisory Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way that ensures age-appropriate recommendations are made which correlate to our district's grade configurations.' The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule. The overarching goal of the committee shall be to promote student wellness by monitoring how well the district is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, and 8 of the CDC's School Health Index as a basis for assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in each school's ACSIP, provided to each school's principal, and reported to the board.
